

Annual Partnership Plan

2025-2026

Presentation of the association

THE EXPERT IN TRANSPORTATION

Our mission

Since 1964, the AQTr has been THE LARGEST NETWORK OF TRANSPORTATION EXPERTS IN QUEBEC. It is a premier forum for exchange, bringing together industry professionals to promote innovation and the sharing of technical knowledge in all sectors of transportation in Quebec and internationally. Each year, the AQTr organizes several major events such as the Annual Conference, symposiums, the City Tour, the Back-to-School Summit, and other one-off events that bring together thousands of industry players.

Expertise tables

9 EXPERTISE TABLES promote knowledge sharing and highlight best practices in the transportation industry.

AQTr members come together around Expert Tables, which allow them to showcase their expertise and contribute to the advancement of transportation: Transportation Infrastructure, Sustainable Mobility, Road Safety, Road Signaling, Intelligent Mobility-ITS, Public Transportation, Railways, and Winter Maintenance. The international component is covered by PIARC-Québec, the Quebec committee of the World Road Association, for which the AQTr serves as the general secretariat.

Transform

Since 2007, the AQTr training center has offered a range of accredited training courses designed to meet the needs of professionals in the transportation sector. Today, it is the only training center dedicated to the transportation sector in Quebec.

TransForm trains more than 6,500 people per year thanks to the development of training programs created in consultation with key stakeholders in the field, who ensure the relevance and quality of the technical content.

The training courses offered are grouped by field of expertise :

- ≈ Roadwork signage
- ≈ Municipal infrastructure
- ≈ Pavement management
- ≈ Road safety
- ≈ Various webinars

The training courses are revised annually in accordance with the standards set out in Volume V of the Ministry of Transportation and Sustainable Mobility.

Become a partner of the association

POSITION YOUR BRAND AT THE HEART OF TRANSPORTATION

Remarkable and exceptional visibility thanks to a judicious partnership.
